

Museum UV + protection, Ug-value 3.8, dual IR protection - the highlight of the Denkmal trade fair, 2012

22.12.2013

All these values ??- integrated into a single laminated glass pane - opens up entirely new possibilities in the protection of museum and historically valuable areas.

Visit us at the Denkmal trade fair in:

Hall 2, Stand I22

We look forward to your visit!

Here you can get the latest information about our UV ++ glasses.

P. S. of course we can also produce a thin insulating from this disk ...
